*improving on the last, I personally can't wait to see what else is in store.*

***Seriously, BUY THIS GAME.***

---

this is an amazing game and i'm also glad that they removed the live sistem from the last game cause this game is also from time to time waay harder!. Another fun word game. I've just begun playing and can already tell this will become a new favorite in my rotation.. i played this game while it was free and it was ok at best not even close to 30 dollars. Amazing soundtrack. Every song on this album is lovely and worth getting it if you enjoyed Nameless. <3. Best part of the game... was the Refund.

Wait what?... I can not get a refund?. Oh yes I can I said to the Developers.

☒☒Your false End User License Agreement doesn't work here on Steam.☒☒. Wow! What a great game. Neat take on turn-based strategy. Good story and characters as well. And a great price to boot!. Graphics are good, but I see that the game is low-budget. It's not worth buying, I got it for free.

Generally it's not bad.. actually the worst game i've ever played
